

Iraqi woman provided catheterization in Israeli hospital

The online news media WALLA reported, that a 30 year old Iraqi woman was treated at Rambam Medical Center in Haifa for catheterization in August.

The woman's identity could not be revealed due to the fact that she comes from one of the most dangerous cities in Iraq where militias could take revenge and harm her family who lives in the city.

The Iraqi woman was able to reach Israel with the help of "Shevet Achim" a Christian organization that assists citizens from Arab countries in the Middle East to be treated in Israeli hospitals. This program is meant to bridge gaps between Israel and the various Arab countries.

During the catheterization which was preformed by Dr. Avraham Lurber,

a hole in the heart was repaired and the woman was able to return to her family in Iraq.
